WEDNESDAY June 5, 1901. Entered as second class matter at the Batesburg Fost Office.

Gov. Mc Sweeny has acted wisely and well in the Senatorial muddle and de serves the commendation of our citi compaign, which bid fair to be one of personalities and vituperation, rather than a dignified and elevating discus sion of National affairs. Strictly speaking, the Governor had no right to refuse to accept the resignation of our Senators, that is not in his province, nor did Gov. Mc Sweeny do so. diploma were delivered. He acted within his power when he returned the resignations for calmer consideration. He made a cracker jack shot, when he said to our belicose INTERSETING NEWS ITEMS. Senators, if you insist, I am ready to appoint your successors in two min utes and a half, Good, Governor!! We will take you at your word and believe you will.

Senator Tillman has the war paint on and peppered the Governor for his sction in the matter. We believe the Governor is able to take care of him elf, especially in right and proper time, the people will at this wifting. We hope she will take action. That time is next year continue to improve. The wisdom of the Governor's action is attested by its commendation from the leading men in politics [and busi ness in our State.

The closing of the school in Batesfurg, invites some remarks upon the subject of education. The necessity and the importance of a cultivated mind, are too well recognized and acknowle ged to require any argument on that line. Put to have a successful school, with its highest capacity for efficiency and permanency, is tent ty of action among the community in there is no reason why Batesburg cannot lave as good facilities for learning as Leesville, Johnston or Edgefield, or elsewhere. The citizens of Entesturg passess the means. They have the children. The children have the native talent, and it is incumbent ujen parents to give them the best of porturity for their moral and intellectual development. This can only be accomplished by united will and action.' If necessary, let us have a seperate school district established relatives and friends in Leesville. and vote a tax upon ourselves, to assist in maintaining good schools. This is the cheapest way after all of meeting tuition fees for a community. Let the people of Batesburg counsel this summer, one another on this point, and thus awaken an increased interest for education among them.

Con mencement Excreises of The Batesburg Institute.

Commencement exercises of the day and Monday evenings. Although illness for some time; is slowly imusin was falling heavily at intervals proving. We hope she will speedily dur ng Thursday evening, a fair sized recover.

Miss Sallie Scofield after spending a few days with her parents, Mr. & Mrs. J. W. Scofield, returned to the Columbia Business College last Wednesday. Dr. Kneece is kept quite busy look ing after the health of our community-Quite a number of our people took in he Reunion at Columbia, they came back wel! pleased with what they saw Mr. Compton Lybrand and his sister Miss Laura, are visiting their sister Mrs. D. F. Shumpert.

Do you know that out of \$25,000,000 paid for canned fruits last year the fruit growers got \$3,000,000; the canners the rest. The many growers live in poverty, the few canners in luxury. If you want to make money in the fruit business, do your own canning. You can't do practical, money-making work on a cook stove, but you can with the new T.G. WILSON CANNING MACHINE, 1899 patent, which I am selling.

It is a complete canning machine of galvan-teed iron. A fire-box is in the middle, surrounded by water. It makes the water boil with amazing rapidity, and is just the thing for washings, slaughterings, etc. Weighs 27 pounds, and can be placed in the house or yard. Will can 400 to 600 cans per
